# ERIC THRANE

Monash University ⋄ PO Box 27 ⋄ Clayton, Victoria 3800 ⋄ Australia
TEL: +61 (03) 9902 0393 ⋄ MAIL: eric.thrane@monash.edu ⋄ WEB: https://ethrane.github.io/

## EDUCATION

**University of Washington, Seattle, WA** *2003–2008*
PhD, Physics
*A Search for Astrophysical Neutrino Point Sources with Super-Kamiokande*
Advisor: R Jeffrey Wilkes

**University of Michigan, Ann Arbor, MI** *1999–2003*
BS, Physics with Highest Honors (& BA, Philosophy)
*Flat Electron Beam Dynamics: A Comparison of Data with Simulation*
Advisor: David Gerdes

## RESEARCH INTERESTS

Astrophysics, gravitational waves, cosmology

## WORK EXPERIENCE

**Professor** 2020–
*School of Physics & Astronomy, Monash University* *Clayton, VIC*

**Chief Investigator** 2024–2031
*ARC Centre of Excellence for Gravitational Wave Discovery (OzGrav 2)* *Clayton, VIC*

**Associate Professor** 2018–2019
*School of Physics & Astronomy, Monash University* *Clayton, VIC*

**Data Theme Leader** 2017–2024
*ARC Centre of Excellence for Gravitational Wave Discovery (OzGrav)* *Clayton, VIC*

**Senior Lecturer** 2017–2018
*School of Physics & Astronomy, Monash University* *Clayton, VIC*

**Lecturer** 2015–2016
*School of Physics & Astronomy, Monash University* *Clayton, VIC*

**Senior Postdoctoral Scholar** 2012–2014
*Division of Physics, California Institute of Technology* *Pasadena, CA*

**Postdoctoral Research Associate** 2008–2012
*Dept. of Physics & Astronomy, University of Minnesota* *Minneapolis, MN*

## AWARDS & FELLOWSHIPS

**Probing CP violation with Hyper-K** 2025–2028

- $634K AUD with Prof Phil Urquijo; DP250100373

**A Transdimensional Approach to Gravitational-Wave Astronomy** 2023–2026

- $460K AUD with AProf Paul Lasky; DP230103088

**The ARC Centre of Excellence for Gravitational Wave Discovery (OzGrav 2)** 2024–2031

- $35M AUD for 23 researchers; CE230100016

**ARC Linkage Infrastructure, Equipment and Facilities (LIEF; LE210100002)** 2021

- Australian Partnership in Advanced LIGO+ ($3M AUD for 12 investigators)

**Rising stars (*The Australian*)** 2019

- Australia's top 40 researchers who are less than 10 years into their careers

**The ARC Centre of Excellence for Gravitational Wave Discovery (OzGrav)** 2016–2023

- $31M AUD for 19 researchers; CE170100004

**Breakthrough Prize in Fundamental Physics** 2016

- $2M USD split between members of the LIGO Scientific Collaboration

**Gruber Cosmology Prize** 2016

- Ron Drever, Kip Thorne, Rai Weiss, and the LIGO Science Collaboration

**ARC Future Fellowship (FT150100281)** 2015–2019

- Gravitational-wave astronomy: detection and beyond ($618K AUD)

**Ken Young Fellow** 2003
*University of Washington* *Seattle, WA*

**Graduated with Highest Honors** 2003
*University of Michigan* *Ann Arbor, MI*

## SELECT PUBLICATIONS

With significant personal contribution; my group members are highlighted in bold.

★ = lead and/or corresponding author

## TELESCOPE PROPOSALS

**MeerKAT** (PI: R. Shannon) — 588 hours over two years
*The MeerKAT Pulsar Timing Array* — *2025–2027*

## RECENT TALKS

**Australian National University RSAA** — June 2024
*Results from the 4.5 year MeerKAT Pulsar Timing Array Data Release* — *Mt Stromlo, ACT*

**IPTA Meeting** — June 2024
*Mapping the nanohertz gravitational-wave sky* — *Sexton, Italy*

**GWADW** May 2024
*Astrophysics in the Era of neXt-Generation Observatories* *Hamilton Island, QLD*

**IAU-IAA Astrostats Seminar** August 2022
*Investigating black hole spin with gravitational waves* *Online*

**Frontiers of Fundamental Physics** May 2022
*Merging compact binaries inferred using gravitational waves through GWTC-3* *Istanbul, Turkey*

**Association of Asia Pacific Physical Societies** October 2021
*Building better spin models for merging binary black holes* *Seoul, South Korea*

**University of Melbourne** September 2021
*Building better models for populations of merging binary black holes* *Melbourne, VIC*

**University of Michigan** March 2021
*Population Properties of Compact Objects from GWTC-2* *Ann Arbor, MI*

**University of New South Wales** December 2020
*Compact objects in the Second LIGO-Virgo Gravitational-wave Transient Catalog* *Sydney, NSW*

**University of Canterbury** December 2020
*Population Properties from the Second LIGO-Virgo Catalog* *Canterbury, NZ*

**LIGO-Virgo Webinar** November 2020
*Population Properties of Compact Objects from the Second LIGO-Virgo Catalog* *Online*

**University of Auckland** October 2020
*The population properties of binary black holes with Bayesian hierarchical modelling* *Auckland, NZ*

**CSIRO Astronomy & Space Science** July 2020
*Dispatches from the black hole mass gaps: recent results from LIGO-Virgo* *Marsfield, NSW*

## LEADERSHIP & SERVICE

### Referee

Astronomy & Astrophysics, Astrophysical Journal, Astrophysical Journal Letters, Journal for Cosmology and Astroparticle Physics, Living Reviews in Relativity, Monthly Notices of the Royal Astronomical Society, New Astronomy Reviews, Nature Astronomy, Nature Communications, Physical Review Applied, Physical Review D, Physical Review Letters

### Reviewer

- Australian Research Council, Swiss National Science Foundation, Royal Society Te Apārangi (New Zealand), US National Science Foundation

### Advisory

- NCA Time Domain and Multi-Messenger Astrophysics Working Group Chair (2024), AAL Project Oversight Committee (2024–2025), ASA Time-Domain Astronomy Steering Committee, IPTA Detection Committee (2021–2023), NCA MTR CapOp (2019), AAL Science Advisory (2018–2020)

### LIGO Scientific Collaboration

- Co-Chair of Stochastic Data-Analysis Group (2011–2017), Review Chair for Burst Group (2017–2020), Editorial Board (2019–), Co-Chair of Compact Binary Coalescence Group (2025)

### Organising Committees

- ASA SOC 2019; GWPAW SOC (2018, 2021, 2022); AGCGRG SOC 2021; GWPAW LOC 2022

### Diversity

- LVC Ally (2018–), OzGrav Diversity Committee (2017–)

## MEDIA

My group's work has been featured in a number of publications including *The Independent*, *The Sydney Morning Herald*, *The Australian*, CNET, and *The Guardian*. I have discussed my research on radio and television programs including *The 7:30 Report*, *Catalyst*, 3AW radio.

## OUTREACH

I regularly give public lectures on black holes and gravitational waves. Recent talk venues include MIT Lincoln Lab, the AIP Nobel Prize Public Lecture, and an Instant Expert event organised by New Scientist.

## TEACHING & EDUCATION

### Monash University — 2015–

- PHS1011 (First-Year Physics): Unit Coordinator
- PHS1022 (First-Year Physics): Unit Coordinator
- ASP2062 (Astrophysics): Unit Coordinator
- PHS4200 (General Relativity)
- PHS5020 (Advanced General Relativity)

*Administrative roles*

- Postgraduate Research Coordinator — 2022–2024
- Education Head — 2015–2016

*Supervision*

- Research faculty
  - Dr Rory Smith — 2017–2024
- Postdocs
  - Dr Gosia Curyło — 2024–
  - Dr Sharan Banagiri — 2024–
  - Dr Nir Guttman — 2023–
  - Dr Simon Goode — 2023–
  - Dr Grant Meadors — 2018–2019
  - Dr Xingjiang Zhu — 2017–2021
  - Dr Letizia Sammut — 2015–2017
  - Dr Pablo Rosado — 2016
- Postgraduate Students
  - Mallika Sinha — 2025–
  - Andrew Atta — 2024–

- Lachlan Passenger 2024–
- Liam Pinchbeck 2023–
- Shun Cheung 2023–
- Valentina DiMarco 2022–
- Hui Tong 2022–
- Christian Adamcewicz 2022–
- Teagan Clarke 2022–
- Rowina Nathan 2022–
